- 4) You do not need to use all of your attempts.
- 5) There are age 5 Categories;

How to calculate your route score:

The final hold on each route is assigned a point value of 99, with the next hold down being 97, 95, 93 etc. (a difference of 2 pts per hold)

On routes to be top-roped, matching the final hold with both hands scores 100.

A climber having 'held' a hold shall be awarded the point value of the hold.

A climber having 'held' a hold and having made a climbing movement in the interest of progressing along the climb shall be awarded the point value of the hold plus one point.

The Highest of your 3 attempts per route will be used to calculate your overall score.
