Scottish Climbing Walls' Support Programme 2024

Mountaineering Scotland has arranged support [for the Scotland Development Squad and Scotland National Squad and GB Squad members](#) at a number of climbing walls across Scotland. These walls are members of the Scottish Climbing Wall Network and offer their support for personal training.

Benefits:

1. Recognition by Mountaineering Scotland and access to support
2. Access to Scottish Climbing Walls at reduced rates or free
3. Invite to Mountaineering Scotland Events (coaching support, academies, training, meets etc.)

Conditions of Access:

1. The Wall Support offered is specific to each venue and may vary. Please ensure you check directly with the venue in relation to their terms and conditions when planning your visit.
2. There is no charge for parents/guardians who are registered to belay or support their children, but they must pay the normal entry fee if they wish to climb themselves
3. All Squad members will have to pay the appropriate entry fee to any of the wall's competitions
4. All Squad members must be supervised by a responsible adult to ensure their behaviour is exemplary
5. All Squad members and accompanying adults are representing Mountaineering Scotland and are requested to conduct themselves in accordance with the ClimbScotland Code of Conduct (available from the [website](#)). Notifications of bad behaviour to Mountaineering Scotland will be investigated fairly and if behaviour contrary to this code is found to have occurred expulsion from the Squad may be an option
6. All Squad and Team members must wear their squad kit when attending the wall or they may be refused access
7. GB Squad members must wear GB kit when attending the wall or they may be refused access
8. Athletes must include the wall's social media tags when posting about their visit

- The wall reception should be notified on arrival with the squad member's name checked against the Mountaineering Scotland official Lists. **Members should be wearing their Squad strip / hoodies. This is a requirement for access**
